

EZFAXCENTER

get onto our cloud

INCREASE EFFICIENCY:

- Monitor transmission status without leaving your desk
- Send faxes to multiple recipients simultaneously
- Easily search for past sent/received faxes on your computer
- Generate automated notifications about sent and received faxes
- Send and receive faxes remotely

IMPROVE ORGANIZATION:

- Reduce clutter by storing faxes on your computer instead of on your desk
- Archive sent and received faxes for future reference
- Protect privacy by confining faxes to your computer

REDUCE OPERATING EXPENSES:

- Eliminate the need for fax equipment, maintenance and toner
- Cancel your dedicated fax line
- Send and receive faxes from anywhere without incurring long distance charges
- Provide remote and off-site employees the ability to fax without purchasing fax machines

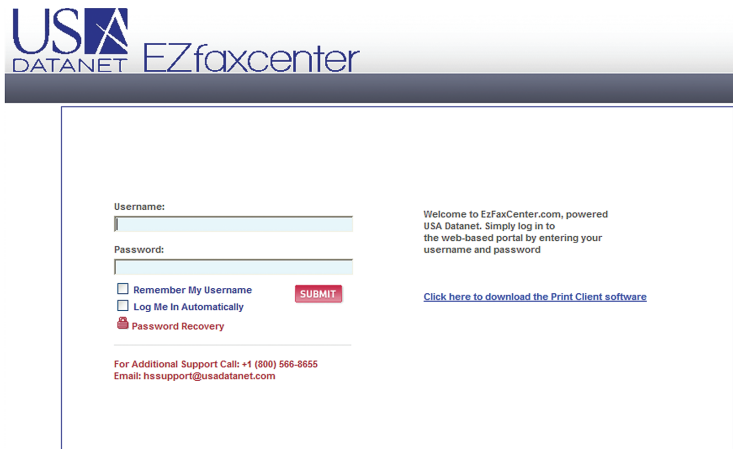

MAXIMIZE PRODUCTIVITY, MINIMIZE WASTE

USA Datanet's EzFaxCenter is a digital faxing solution that increases office efficiency, improves office organization and reduces operating expenses. By instantly delivering and receiving digital faxes through your computer, you can eliminate the costs associated with traditional fax machines and better manage the documents you send and receive. USA Datanet's EzFaxCenter maximizes productivity to help your business save time and money.

- Manage user preferences at EzFaxCenter.com
- Automatic re-attempts
- Broadcast faxing
- Standard and custom cover pages
- Supports account billing codes
- Renders faxed documents in PDF, TIFF,
- Attach documents in PDF, TIFF, GIF, JPEG, PGN, EPS, Word, Excel, PowerPoint, HTML, XML, XLS, RTF or text formats

HOW EZFAXCENTER WORKS

With our EzFaxCenter service you can send and receive faxes digitally through your web browser. Sending is simple: Just enter the intended fax number from within the EzFaxCenter.com portal. The document is sent digitally to the USA Datanet's server, then delivered as a traditional fax to the recipient's fax machine. Faxes you receive via the EzFaxCenter arrive in a PDF or TIFF format in your e-mail inbox for permanent, secure archiving.
